GENERAL INFORMATION

8Ball is a drift reduction and water conditioning agent formulated specifically for XtendiMax® tank mixes to reduce off-target drift. **8Ball** imparts a neutral pH. **8Ball** can eliminate antagonism of the spray tank caused by hard water minerals such as calcium, iron and magnesium. The surfactant ingredient in **8Ball** improves spray droplet spreading and penetration into the targeted leaf surface. **8Ball** provides humectancy to spray droplets resulting in a slower drying time for enhanced uptake of active ingredients. **8Ball** can be used for a wide range of pesticide and nutrient spray mixtures when accompanying labels recommend water conditioners and spreader-wetter adjuvants.
