### GENERAL INFORMATION

Trail Blazer is a unique low use-rate adjuvant that replaces crop oil and modified oil adjuvants. Trail Blazer provides the efficacy of an oil adjuvant with the crop safety of a nonionic surfactant.

Trail Blazer is designed for use with herbicides, fungicides, insecticides, defoliant, desiccants, plant growth regulators and any other crop protection product that recommends the use of an oil concentrate or nonionic surfactant.

Trail Blazer reduces spray application wash-off caused by rainfall, dew or irrigation.

Trail Blazer is an effective single-use adjuvant for tank mixtures that contain multiple crop protection products that recommend oil and/or nonionic surfactant additives.

Trail Blazer contains an integrated antifoaming system that helps minimize foam in the spray tank.
